

Magic Trick - Le Tour de Magie

Pierre-Yves Gallard

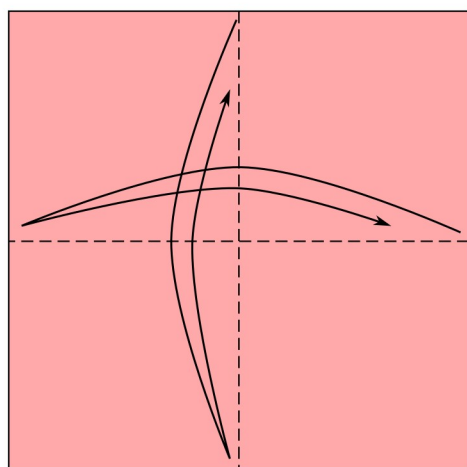

2020

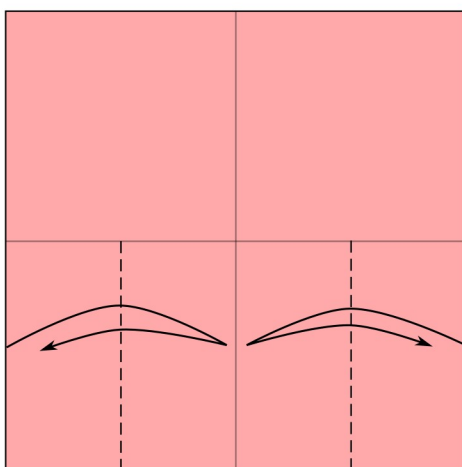

Level : intermediate

Recommended paper : Kami,
15-18 cm.

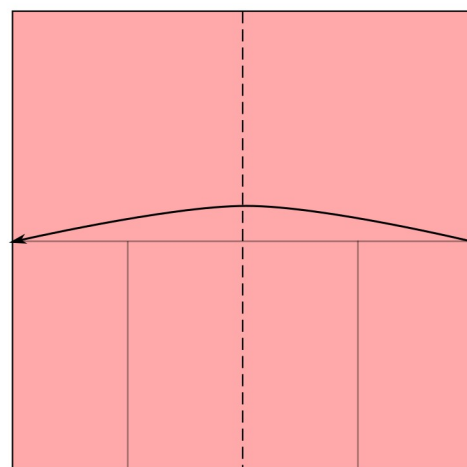

Note : This model was inspired by
Raphaël Maillot's "Rabbit in a hat".

5

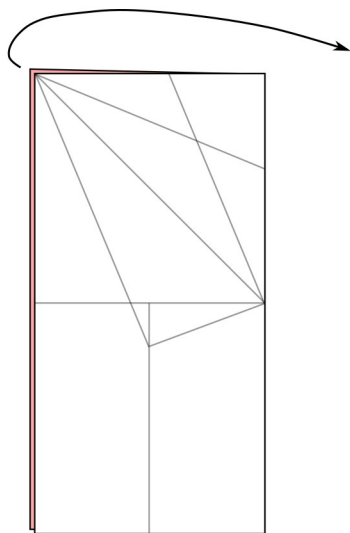

6

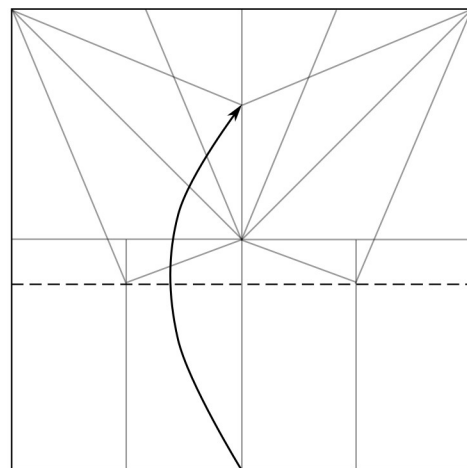

7

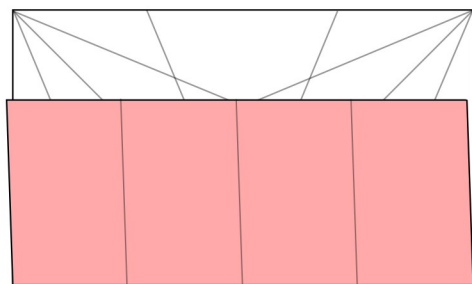

Steps 4 to 7 : Crease on both layers. I also advise you crease both as mountain and valley, it makes the next steps easier.

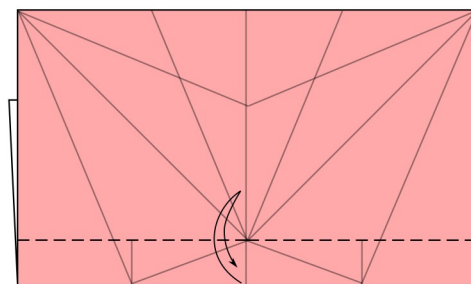

8
Open.

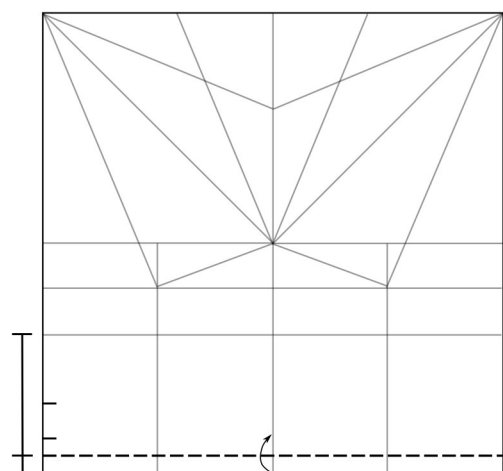

9

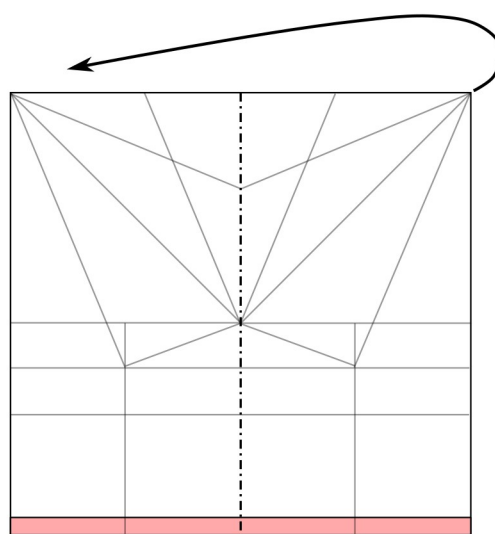

10

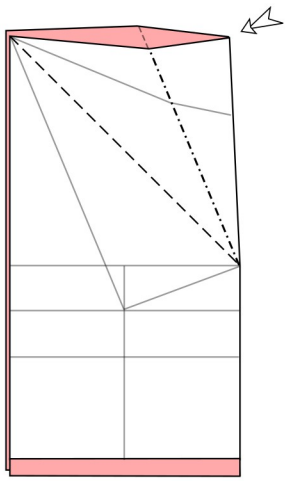

11
Fold and unfold both layers.

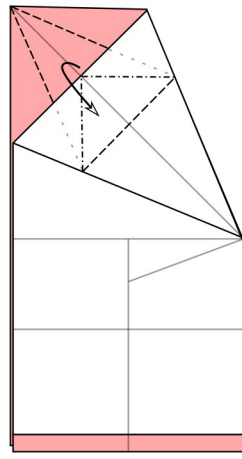

12
Pinch the side to divide the bottom part in eight, then valley fold. This will be the brim of the hat.

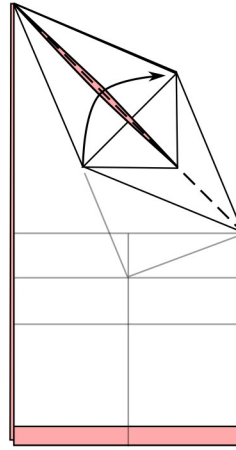

13
Mountain fold.

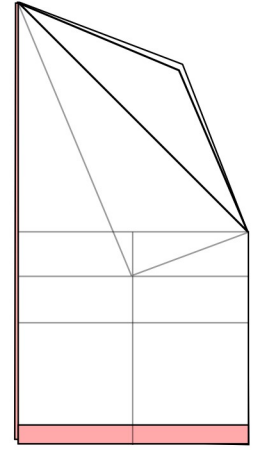

14

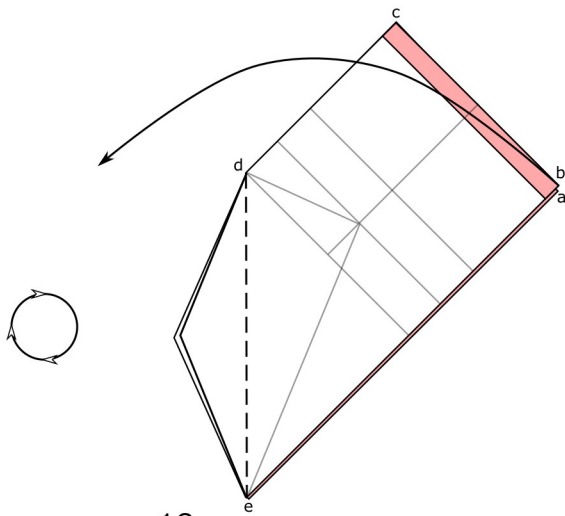

15

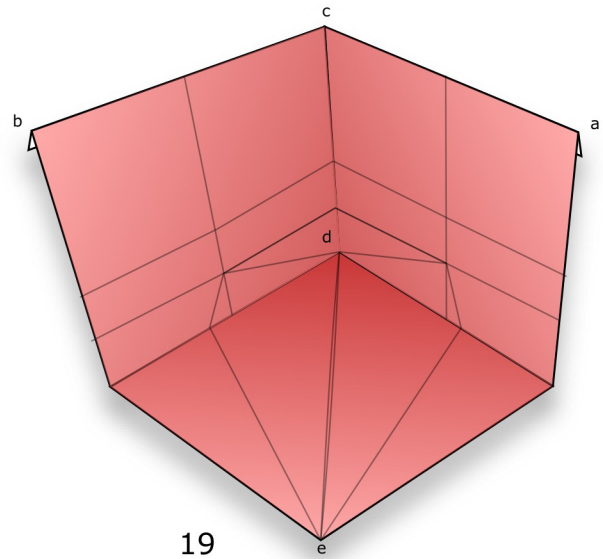

16

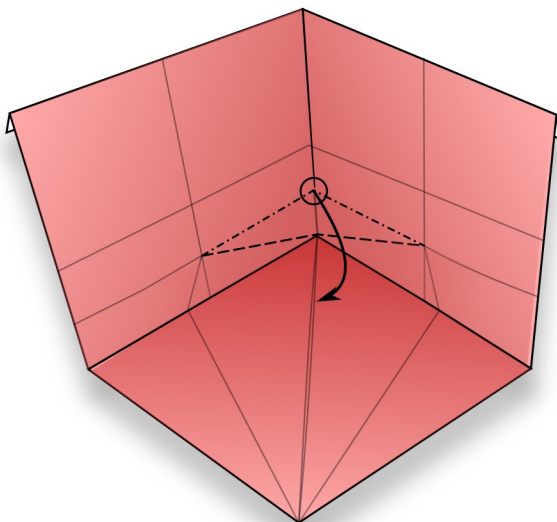

17

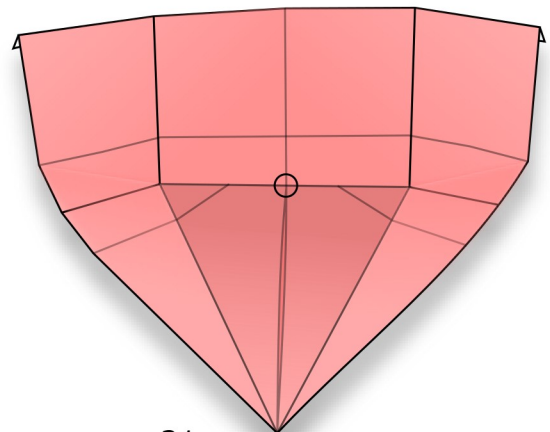

18
Open the model along the
line. Next step is in 3D.

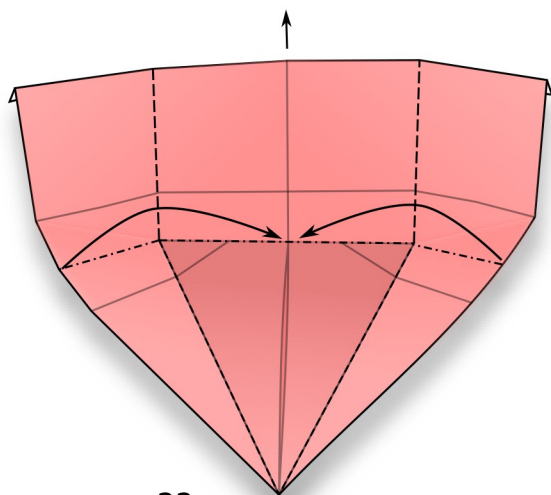

19

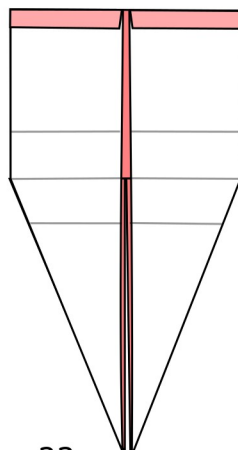

20
Push from behind to bring
the circled point down.
Next step shows the result.

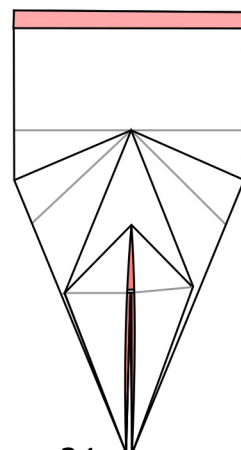

21

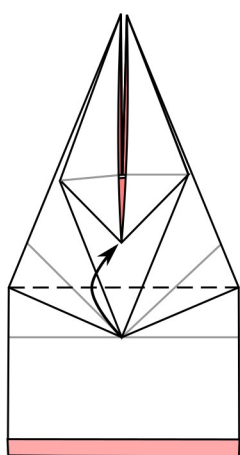

22

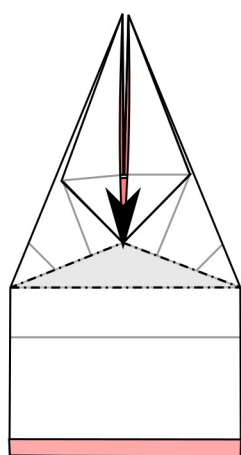

23

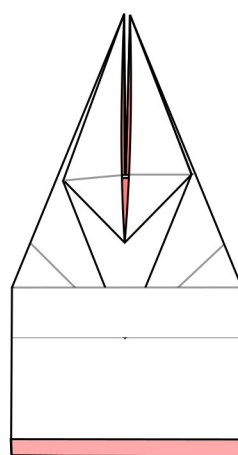

24

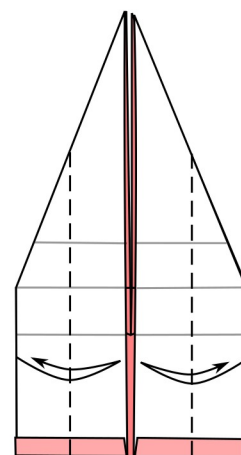

25

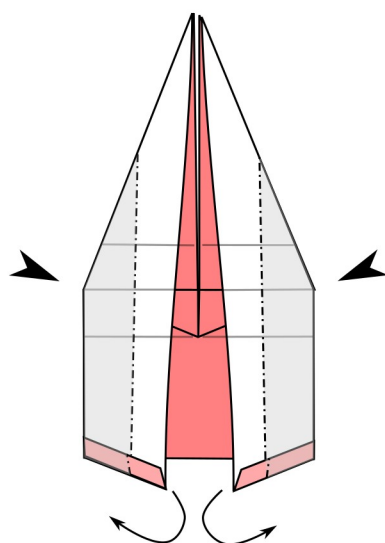

26
Closed sink

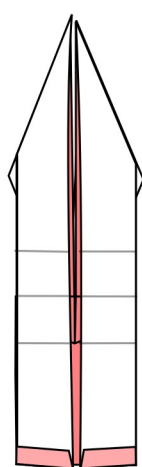

27

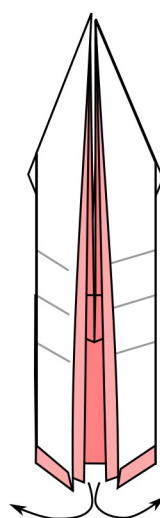

28
Crease firmly

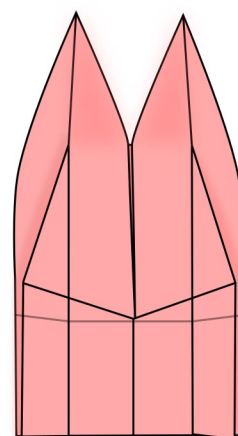

29
Open slightly and
closed-sink the grey
area.

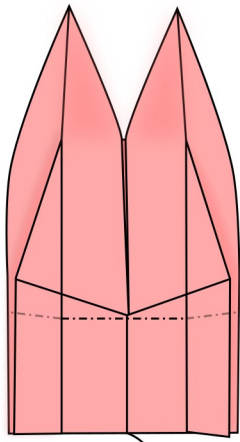

30

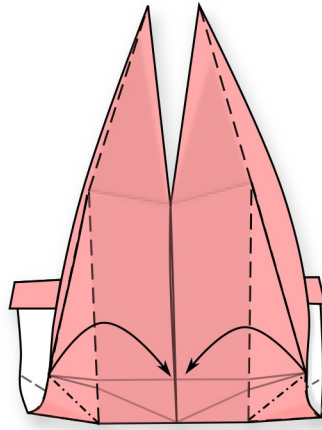

31
Open two layers
on each side.

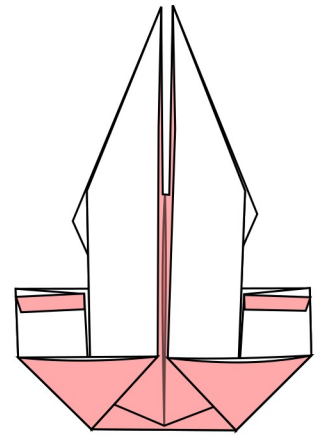

32

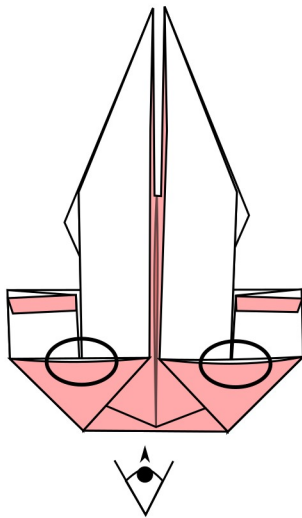

33
Mark the fold only
between the two
inner segments.

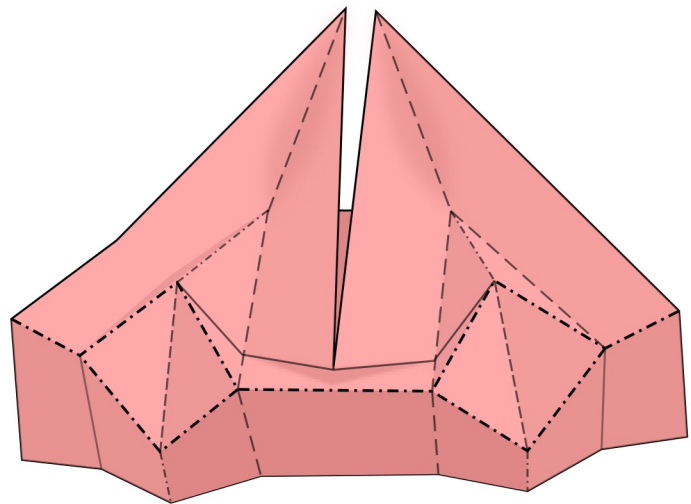

34
Fold the ear back into place,
squash at the bottom.

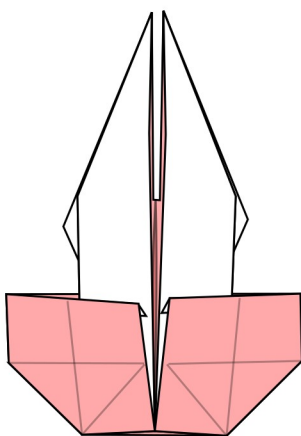

35
The result.

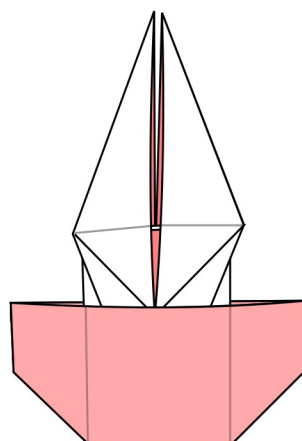

36
Now we need to separate
the circled layers. Next step
will be seen from under.

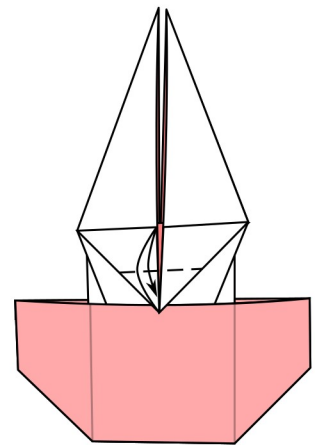

37
Partially unfold the model, then fold it back
according to this pattern.

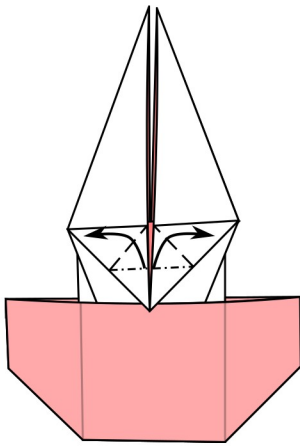

38
The result.

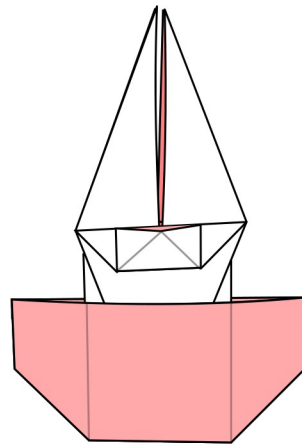

39
Free the tip of the nose
from the hat.

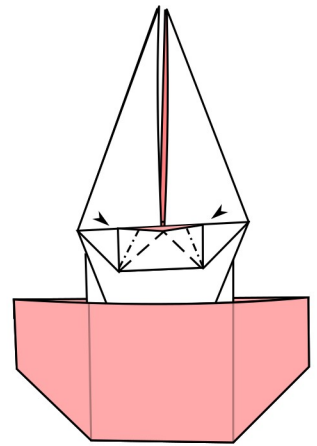

40
Fold and unfold.

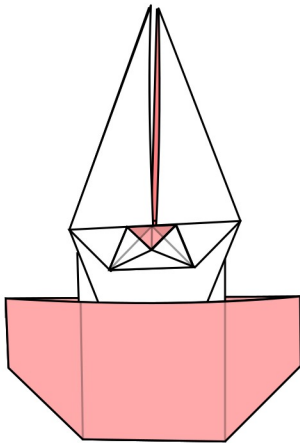

41
Fold back, opening
the top layer as
shown.

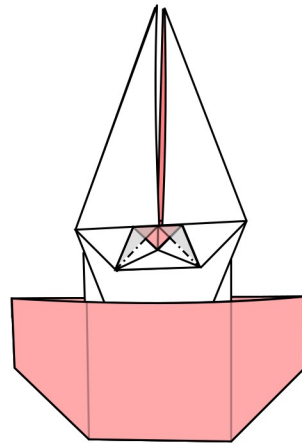

42
The result.

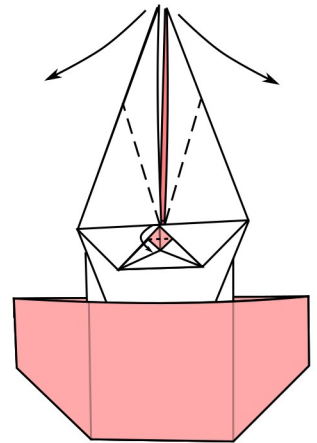

43
Squash the little
triangles.

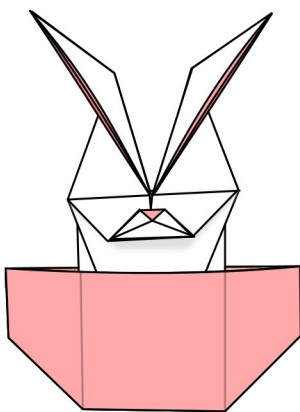

44
The result.

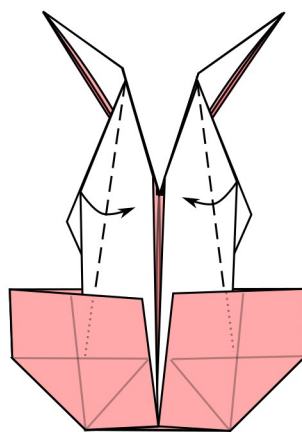

45
Reverse-fold the two
grey triangles behind
the muzzle.

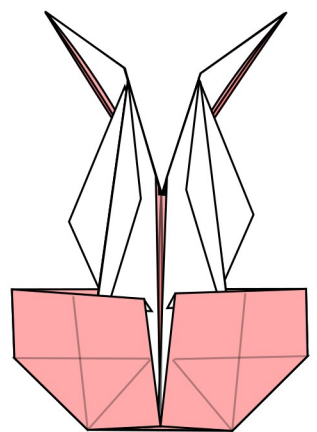

46
Valley fold the tip of
the nose and the ears.

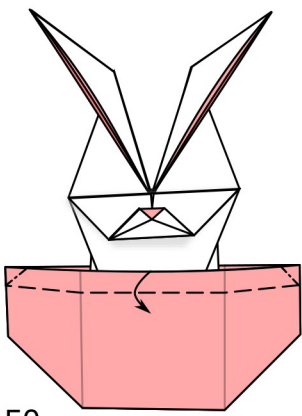

47

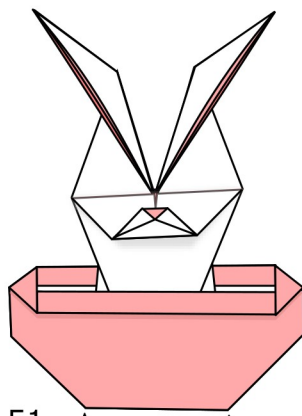

48
Valley fold as far as you
can go.

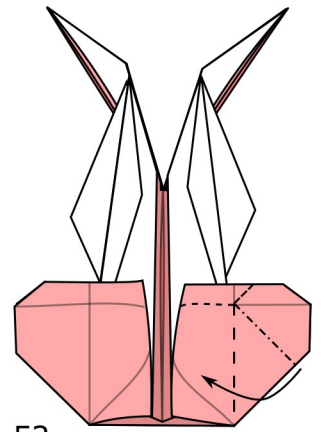

49

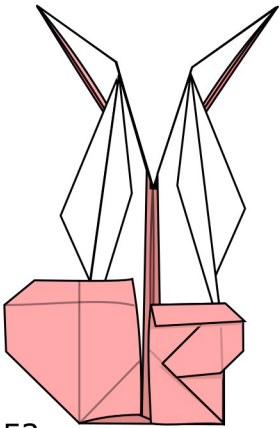

50
Fold along the inside layer

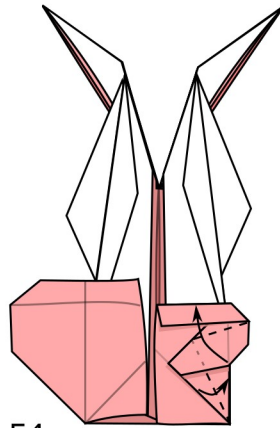

51
If the last steps are too difficult, you can simply fold two vertical mountain folds, starting from the marked corners : then your rabbit will be in a box.

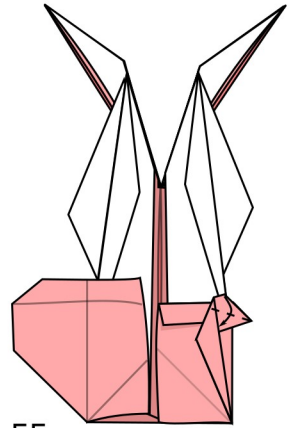

52

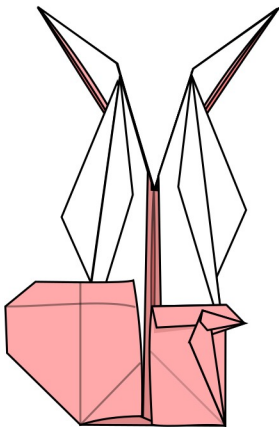

53
The result.

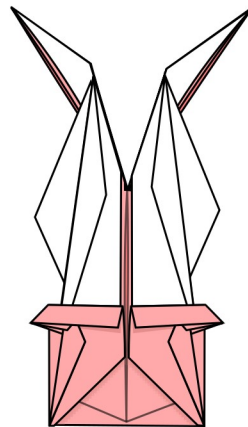

54
Swivel fold.

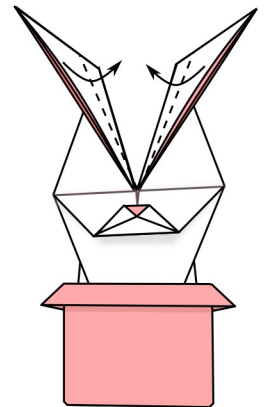

55
Fold down the parts which stick out...

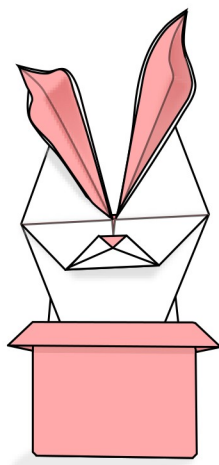

56
... then hide them inside the pocket.

57
Repeat on the other side.

58
Open the ears.

Ta-dah !

Congratulations, you've made a rabbit magically appear out of a hat !
